

# AX 310/410 – the newest and most modern options in carpet cleaning

- AX 410 offers dual mode cleaning - choose maintenance and renovation mode by turning a simple valve
- AX 310 is the rugged no-frills version for rental and simplified applications
- Quality design and first-class engineering saves water and chemicals
- State-of-the-art moisture recovery speeds up drying time
- Durable construction for long-life

The handle is adjustable for easy storage and ergonomic operation

Large, non-marking wheels for easy operation and transport

Rotating brush for deep cleaning

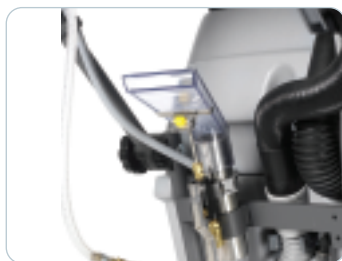

Rugged aluminium vacuum shoe for excellent water recovery

AX 310 is an economically priced extractor with basic functional features

The control panel is simple to understand and easy to use

On-board accessories on AX 410 make it easy to clean seat and wall coverings and hard-to-reach spots

# An extensive range of accessories

Every cleaning application is special, and to get the best out of the machines you buy it is important to have the right accessories to go with them.

The right accessories not only enable the cleaning job to be done in the fastest and most efficient way, they also help to prevent damage to the machine and reduce maintenance cost.

All products carrying the Nilfisk-Advance label have been fully tested and are guaranteed for use with our equipment.

Carpet Extractors

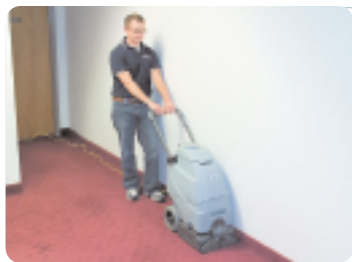

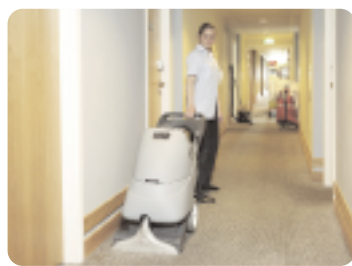

Nilfisk AX 9/14, UC 912, AX 310/410, AX 650, BRX 700

# Caring for your carpet!

Clean carpets  
last longer!

# Dual Mode or Basic - the choice is yours

The AX 310/410 - intelligent options for cleaning carpets in mid-sized area.

Fast and effective dirt extraction from carpets is the name of the game. Thanks to the intelligent design and quality engineering that are the hallmark of all Nilfisk machines, the AX 310 and AX 410 are ready-to-go, reliable and simple to use.

The needs of all carpet extractor users are not the same. AX 410 is the right choice if on-board accessories and dual mode cleaning is required. For those demanding an economically priced extractor the AX 310 offers all the basic functionality.

Both these models offer you the unique dual cleaning mode system to allow you to switch between a real deep clean of the carpet, and a low moisture maintenance mode that ensures a fast turnaround of the area. They are ideal for cleaning medium sized carpeted areas in offices, schools, airports, restaurants, hotels, shopping malls, and other heavy traffic areas.

# Keeping operating cost down

| UC 912 |

| AX 9/14 |

A COMMERCIAL CARPET EXTRACTOR WITH TROLLEY, VERY HIGH SUCTION AND DRYING CAPACITY

COMPACT BOX EXTRACTORS FOR EFFECTIVE SPOT-CLEANING

- Perfect for all applications where cleaning solution has to be pressure-applied
- For spot cleaning, carpet cleaning and other tough cleaning jobs
- Solution is distributed directly to the surface through a spray nozzle, activated by a trigger on the handle
- The high capacity vacuum recovers dirty solution and leaves the carpet slightly damp
- Can also be used as a separate wet and dry vacuum cleaner

The AX 9/AX 14 provide an easy-to-use, effective way of taking care of stains on carpet and textile coverings. Designed with the user in mind, these machines are light and compact, easy to store and simple to transport from area to area or job to job. When fast spot cleaning is required, the AX9 or AX 14 will take care of it.

- A full range of accessory tools for flexibility in handling various applications
- Perfect for spot cleaning and cleaning of carpets or fabrics in small or hard-to-reach areas
- Superb design provides effective cleaning with a lightweight, easy-to-move machine
- Polyethylene body and accessories with inox tubes ensure durability and long-life
- The 4 pivot wheels provide full mobility
- The ideal extractors for cleaning contractors, institutions, restaurants, rental stores, hotels etc.

Perfect for hard-to-reach areas eg. theatres or cinemas

Available in 9 or 14 litre capacity, these extractors meet the demand for flexible cleaning of carpets, wall coverings, rugs, armchairs, seats and other textile coverings

### 1. Restoration mode

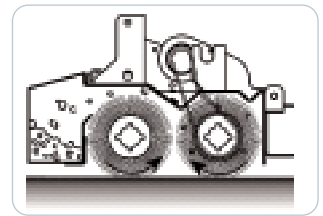

Solution sprays directly into the carpet for deep cleaning.

### 2. Low moisture mode

Solution sprays on brush for maintenance cleaning.

Dual cylindrical technology for rider sweeper/extractor

## AX 650

## BRX 700

### TAKING CARPET CARE TO THE ULTIMATE LEVEL

The advanced battery-powered AX 650 is a walk-behind extractor that can be used either for deep-cleaning restoration work or for interim maintenance cleaning.

The AX 650 battery-powered automatic extractor cuts operation costs with longer run-time by minimizing operator dumping and refilling time. The extractor is durable and manoeuvrable. The heavy-duty steel frame and scrub deck is corrosion-protected and built to last. The drive wheel is centred for manoeuvrability and tight turning

- Dual purpose ability allowing interim cleaning or deep restoration cleaning
- Two self-leveling vacuum shoes with down pressure applied so that they follow the contour of the floor
- Easy maintenance (brush, vacuum shoes and vacuum motors are removable without any use of tools)
- Double scrub with auto reverse scrub

### WHY WALK WHEN YOU CAN RIDE!

The BRX 700 is the industry's first ride-on sweeper/extractor, and is the sensible answer for large area carpet cleaning.

It will change how your customers think about cleaning their facilities. The machine is designed to improve productivity, reduce operator fatigue and drive down the overall cost of cleaning. The BRX 700 sweeps debris into the integrated hopper and extracts dirt from the carpet in one pass. Due to the dual counter rotating brushes the carpet is left with a groomed appearance and with the 71 cm cleaning path, your productivity is increased up to 400%!

- Cleans up to 1720 m<sup>2</sup>/h
- 160 cm turning radius and can fit through a 83 cm doorway
- One touch control, and excellent driver visibility
- Dual vacuum motors allow short drying time
- Designed to eliminate vacuuming before extracting by sweeping and extracting in one pass!

With a front roller that has 3 settings the carpet gets cleaned all the way to the edge

No tools needed for daily inspections of the brushes and cleaning is simple

Easy switch between restoration and maintenance modes

Dual vacuum motors are protected by an anti-foam chamber and easy access vacuum filters, which assure optimum air flow
